Don't make the same mistake I did here...Namely, putting off getting this comprehensive guide because I figured I'd already read enough books, e-books, articles and so on about content marketing. Fortunately, I've subscribed to JGG's blog for years and recently, joined her Facebook group. And in both places, I keep seeing professionals and newbies heaping high-praise on her book. So it finally struck me. Yes, I've read mucho material on content writing. But the reason I valued Jennifer's posts so much was for her "in-the-trenches" insights on building a freelance business and getting and retaining clients. So I ordered her "How-To" guide. And my second thoughts were on the nose. First, Jennifer packed a Godzillian amount of specialized knowledge into its 264 content pages. Also—this masterful volume isn't a clutter of vague advice, swipes from other sources, or cheesy templates easily found online. Nope. Here, Jennifer draws from her vast experience to provide you with the priceless, peerless power to...find and retain high-paying clients...create captivating content...dramatically boost your income...create a business that you'll love...and a heckuva lot more. All without investing in pricey seminars or costly online courses. So do your career a favor and check this book out. With all the proven ideas, processes, and templates it contains, I assure you, you won't be disappointed.
